Instructions

1. Submit the data elements defined in this data dictionary for certified staff through the State Report Manager (SRM) at <https://srm.eed.state.ak.us/srm/unprotected/welcome.do>. Certified staff include: teachers, building administrators, nurses, central office staff and specialists who are certified. Report all other staff in the Paraprofessional/Classified Staff Accounting.

A template can be **requested** by emailing tim.workman@alaska.gov. The template is an Excel spreadsheet pre-populated with all the data reported the previous year. Any new fields will have a column heading, but no data. If your personnel records are in a database that you query to gather the requested information, this spreadsheet will act as a template for your final report. If you hand enter the data into the report each year, this spreadsheet is updateable and should be used as a starting place for your final report.

To accommodate the different computer systems in Alaska and to facilitate data reporting, districts have the following preferred file format options for reporting data:

- Tab-delimited (.TXT)
- Comma-separated (.CSV)

For further instructions on submitting through SRM, please see [Appendix D](#).

2. After a completed data file has been uploaded to SRM, SRM will issue a Validation Summary Report listing the errors that need to be corrected and warnings where verification is needed. Make corrections in file. *For list of validation rules and error message details, please see [Appendix E](#).*
3. Resubmit file with corrections through SRM. Repeat steps 1 & 2 until no more errors.
4. Certify/verify that the file is accurate through SRM.

Clean data is due by October 15th of each year. Preferred early submission to the department by October 8th for adjustment and cleaning. Districts that have not submitted complete clean data by October 15th will be included in an official notification to the Teacher Certification Administrator. An unofficial email will be sent to all district contacts at least one week before the official notification to the administrator. District contacts are expected to monitor the completion status of their data submittal and insure that the department has correct district contact information.

Note: The State Report Manager (SRM) is an online automated data collection process where you will upload your file and receive immediate data validation.

General Information

All certified staff employed by a school district as of October 1 must be included in this report. This report is updated annually and is due to the Department of Education & Early Development by October 15 of each year. **Teachers teaching core content areas that are hired after October 1 and not included in this report should be included in the April 1 spring data collection.**

For purposes of this document teachers include: (13) Remedial Specialist, (14) Head Teacher, (15) Teacher, (16) Visiting or Itinerant Teacher, (21) Special Education Teacher, (31) English as a Second Language Teacher, (40) On-site Supervising Teacher and (41) Correspondence Teacher.

Information provided in this report is included in the No Child Left Behind report and Consolidated State Performance Report to the U.S. Department of Education. (AS 14.50.080) The data is also used in many statistical reports, including the Alaska's Public School Districts' Report Card to the Public, the federal Common Core of Data, the federal Special Education Personnel report, cross checks with teacher certification, requests from the legislature (SB241 and SB133) and other special requests from state agencies.

Employees' identities not matching the Teacher Certification database will require correction in either the data file or in Teacher Certification records. After all errors are corrected, any warnings on the Validation Summary Report will need to be certified that file is accurate by a district representative through SRM.

Adding, Changing, or Deleting Records on Template

Addition of new staff members

If you need to add new staff members, insert rows on the spreadsheet under the appropriate school and enter the information for the new staff. **Please include all data elements on each new staff member.**

Addition of new job or teaching assignment

If a listed staff member has a new job or new teaching assignment, insert a new record and remove/delete the old record from the spreadsheet or overwrite the old data in the record making sure all data elements are updated appropriately.

Changing staff members from one school to another

If you need to move staff members from one school to another, cut the data from the old school and paste the information under the appropriate school on a new line. Make sure to include all data elements.

Deleting staff members from district

If a listed staff member no longer works in your district, is on sabbatical or on leave for the entire year, remove his/her name from the spreadsheet by deleting all his/her information.

Job Sharing

If any staff do job-share a position, the data you send should reflect the total FTE for that position. You need to list both staff members on your report including the salary and FTE for each. The sum of both FTE's should reflect the total FTE for the position and should not exceed 100. See [Job Sharing FAQs](#) on page 31 for an example.

Staff on Sabbatical or Leave of Absence

Staff on sabbatical or leave of absence for the full school year **should not** be included in the Certified Staff Accounting Data Collection.

Staff on long-term but not full year leave (such as a maternity leave) should not be reported in the Certified Staff Accounting Data Collection if not working on October 1, 2012. Such an employee, if returning during the school year, should be reported, if applicable, in the April NHQ Data Collection.

Long-Term Substitutes

Long-term substitutes teaching on October 1 will be reported, not the teacher being replaced.

Long-term substitutes teaching at the time of the April NHQ Teacher Data Collection will be reported along with their HQ status, not the teacher being replaced. In addition, the Long-Term Substitute element will be coded with a Y or N for all teachers in both the October Certified Staff Accounting Data Collection and the April NHQ Teacher Data reporting.

Frequently Asked Questions and Examples

General Questions:

Who should be included in this report?

All certified employees employed by the district as of October 1 must be included in this report.

What will the data provided in this report be used for?

The information in this data collection is used for the No Child Left Behind (NCLB) report, Consolidated State Performance Report (CSPR) to the U.S. Department of Education, Alaska's Public School Report Card to the Public, the federal Common Core of Data (CCD), the federal Special Education Personnel report, legislature reports (SB241 and SB133), cross checks with teacher certification and other special requests from other state agencies.

Salary:

How do I report Salary?

If the individual has several FTEs, report the same full salary for each entry.

Example:

Table 1

Last Name	First Name	Salary	Job Code	Assignment Code	Number of Classes	Highly Qualified	Lowest Grade	Highest Grade	FTE
Smith	John	\$53,520	3	0	0	X	7	9	25
Smith	John	\$53,520	15	190	4	Y	11	12	75

Same Job:

How do I report Same Job?

If he/she was a teacher last year and a principal this year, answer N(o). If s/he was a teacher both years, but changed school, answer N(o). If s/he was a teacher at the same site both years, but changed teacher assignment code, answer Y(es). If he/she was any teacher job code last year and changed teacher job codes this year, answer Y(es).

Example: If employee was a SPED teacher (job code 21) last year and now is an on-site supervising teacher (job Code 40), answer Y(es); Job code 21 and Job Code 40 are both teacher job codes and so still consider same job because he/she is still a teacher.

Note: If an employee is coded as "Y" for Same Job, then that employee should have an "N" in all the 'New To' fields.

Date of Hire:

What does Date of Hire mean?

Date of Hire means the date that the employee was hired by the district. This is the first date of hire by district, for example, teacher stopped teaching one year and taught the next. Use the first year teacher taught as the date of hire.

Highly Qualified Teacher:

Why do special education consultative teachers have to be reported as highly qualified (HQ) or not highly qualified (NHQ)?

Special education consultative teachers' highly qualified status is currently required by the Individuals with Disabilities Education Act (IDEA). Special education consultative teachers are considered highly qualified if they hold a current special education endorsement. However, consultative SPED teachers (Teacher Assignment Code 59) are not required to report a HQ method.

Do elementary subject area specialists (math, language arts, reading, science, social studies, art, music and foreign language) need to be highly qualified in their subject area in order to be reported as highly qualified?

Yes, in order for such teachers to be reported as highly qualified, they must have attained highly qualified status in their instructional field. Attaining highly qualified status as an elementary teacher does not automatically make a teacher highly qualified as a subject area specialist.

Note: Please have the person in charge of maintaining your district's Highly Qualified Teacher Plans review all teachers' HQ/NHQ statuses before submitting this report.

Job Sharing:

How do I report employees who job share?

If employees job share a position, the data you send should reflect the total FTE for that position. List both staff members on your report and each one's salary and FTE. The sum of both FTE's should reflect the total FTE for the position.

Example:

Table 2

Last Name	First Name	Salary	Job Code	Same Job	Assignment Code	Number of Classes	Highly Qualified	Lowest Grade	Highest Grade	FTE
Smith	John	\$13,000	15	Y	14	2	Y	9	12	25
Smith	Sally	\$40,420	15	Y	14	6	Y	9	12	75

Lowest/Highest Grade:

How do I report lowest/highest grades?

For lowest grade you would report the employee's lowest grade taught or responsible for and for highest grade you would report the employee's highest grade taught or responsible for.

Examples:

A third grade teacher would record "3" in **both** grade columns. An elementary music teacher might record "KG" in lowest grade and "5" in highest grade to reflect that they teach all grades from kindergarten through fifth. A math teacher might record "7" for lowest and "11" for highest.

How do I report lowest/highest grades served when a teacher teaches the same subject area to elementary AND secondary students?

You will need to include one row/record for PK-5 or 6th grade assignments that a teacher teaches and another row/record for 6 or 7th -12 grade assignments that the same teacher teaches. For example, if you have a SPED consultative teacher (assignment code 59) who teaches a class of KG-12th graders, you will need two rows - one for the KG-5th or 6th graders and one for the 6 or 7-12th graders. This is required for all core content areas assignments.

Other Examples:

= Correct

= Incorrect

If reporting a 6th grade teacher's classes by individual courses, you may report lowest/highest grades across a secondary grade level range:

Table 3

Last Name	First Name	Salary	Job Code	Same Job	New To Dist.	New To State	New To Prof.	Assignment Code	Number of Classes	Highly Qualified	Lowest Grade	Highest Grade	FTE

Allen	Anita	\$48,030	15	Y	N	N	N	63	5	Y	6	8	100

If reporting a 6th grade teachers classes by individual courses **and** the teacher teaches across grade level ranges, report classes in the elementary grade range **and** classes in the secondary grade range:

Table 4

Last Name	First Name	Salary	Job Code	Same Job	New To Dist.	New To State	New To Prof.	Assignment Code	Number of Classes	Highly Qualified	Lowest Grade	Highest Grade	FTE

Molly	Kapple	\$48,030	15	Y	N	N	N	63	1	N	6	6	50

Do **not** report classes as being in both elementary and secondary grade level ranges:

Teacher Assignment Code:

How do I report a teacher who teaches the same teaching assignment to both elementary and secondary grade levels?

A teacher who teaches core area courses to both elementary and secondary students must be reported with teacher assignment codes at **both** levels.

Note: For purposes of NCLB reporting, grades PK-6 are considered elementary unless a grade 6 course is taught in a designated middle school in which case it is considered secondary. Grades 7-12 are considered secondary.

Example(s):

A teacher who teaches 35-Physical Education to grades KG-12 must be reported as teaching 35-Physical Education at both elementary and secondary levels.

A teacher who teaches music to grades KG-12 must be reported as teaching 306-Elementary Music to elementary grades KG-6 and 34-Music to secondary grades 7-12.

Number of Classes:

How do I report Number of Classes?

In general, report 1 class for elementary classes and elementary resource classes up to 6th grade and report multiple classes for 7-12th grade classes. If a course is offered for two semesters to different groups of students, count this as 2 classes.

A “class” is defined as a setting in which organized instruction is provided to one or more students (including cross-age groupings) for a given amount of time. (A course may be offered to more than one class). Classes that share space should be considered as separate classes if they function as separate units for more than 50% of the time. Self-contained elementary classes should be counted as 1 class taught. Self-contained secondary classes should be counted as 1 per course area.

Note: Elementary specialist classes and elementary resource classes (i.e. foreign language, writing, consultative SPED) should be counted as 1 class per course area.

Elementary Examples:

An elementary specialist teacher teaches 12 art classes once a week for an hour each and 2 reading classes once a week for an hour each. Count this as 1 class of elementary specialist art and 1 class of elementary specialist reading.

Mrs. Smith teaches a self-contained multi-grade 3-5 classroom. Count this as 1 class taught for Mrs. Smith.

Mr. Johnson teaches 1 consultative SPED class every day, 10 music classes per week and 2 art classes a week to different groups of students. Count this as 1 consultative SPED class, 1 elementary music class and 1 elementary art class (only 1 class in each case because they are all considered “elementary resource” or “elementary specialist” classes).

Secondary Examples:

A secondary teacher teaching pre-algebra, history, English and science would be reported as teaching 4 classes: 1 English, 1 History, 1 Pre-Algebra and 1 Science.

Ms. Bailey teaches 2 History classes, 2 Social Studies classes, and 1 English class to *different cohorts of students each semester*. Count this as 4 History classes, 4 Social Studies classes and 2 English classes.

Mr. Oliver teaches 5 Consultative SPED classes all year. Count this as 5 Consultative SPED classes.

Ms. Jason teaches 3 SPED English classes and 2 SPED History classes. Count this as 3 English classes and 2 History classes.

Multi-grade Example:

Mr. Camp teaches PK-12 all subjects. Count this as 1 multi-grade elementary class, and 1 class each for every course area taught for grades 7-12. If Mr. Camp taught grade 7-12 students English, Reading, History, Basic Math, and General Science, in addition to teaching PK-6 students, report this as follows:

Table 8

Last Name	First Name	Salary	Job Code	Assignment Code	Number of Classes	Highly Qualified	Lowest Grade	Highest Grade	FTE
Camp	John	\$53,520	15	113	1	Y	PK	6	50

Camp	John	\$53,520	15	41	1	Y	7	12	10
Camp	John	\$53,520	15	27	1	Y	7	12	10
Camp	John	\$53,520	15	210	1	Y	7	12	10
Camp	John	\$53,520	15	20	1	Y	7	12	10

How do I report Number of Classes for correspondence teachers?

For correspondence school teachers (Job code 41), each teacher assignment code would represent a class, no matter when each individual student enrolls. Teachers teaching the same course at both elementary and secondary levels must be reported as teaching 1 class at each level. FTE may be represented by the portion that each assignment code represents of the teacher's full-time load.

Example:

A correspondence school teacher teaching Pre-Algebra to 10 students, Algebra I to 105 students, Reading to 40 elementary level students, and Reading to 3 secondary level students:

Table 9

Last Name	First Name	Job Code	Assignment Code	Number of Classes	Highly Qualified	Lowest Grade	Highest Grade	FTE
Carver	Meg	41	202	1	Y	7	9	6
Carve	Meg	41	203	1	Y	9	12	67
Carve	Meg	41	305	1	Y	3	6	25
Carve	Meg	41	41	1	Y	7	12	2

How do I report Number of Classes for on-site supervising teachers?

For on-site supervising teachers, report the teacher with a Job Code of 40 and 1 class taught for each teacher assignment supervised. FTE may be represented by the portion that each assignment code represents of the teacher's full-time load.

Example:

An elementary teacher delivers instruction in all elementary content areas to his elementary students. He also delivers instruction to his secondary level students in all the secondary content areas except for 211-Integrated Math. For 211-Integrated Math, he is the on-site supervising teacher only. Another teacher delivers 211-Integrated Math instruction via distance delivery to his secondary level students, report this as follows:

Table 10

Carver	Ray	15	46	1	Y	7	12	10
Carver	Ray	15	21	1	Y	7	12	10

How do I report Number of Classes for team teachers?

For team teachers in a team-teaching situation, consider each teacher of record as teaching 1 class. For example, if two teachers team-teach English to two unique cohorts of students all year, you would indicate 1 as the number of classes taught for each teacher in this situation. Calculate additional classes in the same manner.

Full-Time Equivalent (FTE):

How do I report FTE?

How you report FTE varies between districts, either it is based on what is indicated in the employee contract or the amount of time spent with each job and assignment. The total FTE for each individual cannot exceed 100. An FTE of 100 is a full-time staff member and an FTE of 50 is a half-time staff.

Example:

Table 11

Last Name	First Name	Job Code	Assignment Code	Number of Classes	Highly Qualified	Lowest Grade	Highest Grade	FTE
Jones	Fred	15	9	2	X	7	9	20
Jones	Fred	15	45	2	N	11	12	20
Jones	Fred	15	191	1	Y	11	12	10
Jones	Fred	15	190	1	Y	9	9	5
Jones	Fred	15	37	1	Y	10	10	5
Jones	Fred	3	0	0	X	7	12	40

Note: If you have an employee employed both as a certified staff and a paraprofessional/classified staff the total FTE for the employee should equal the total payroll FTE.

Federally Funded FTE:

How do I report federally funded FTE?

Report the federal funding source, if applicable, for the FTE for the position. If only a portion of the position's FTE is federally funded (one of the programs listed on page 13), report each FTE funded portion separately.

Example:

Table 12

School Number	Last Name	First Name	Job Code	Assignment Code	Number of Classes	Highly Qualified	FTE	Federally Funded FTE

580030	Dawson	Jo	15	37	1	Y	60	X
580030	Dawson	Jo	3	0	0	X	40	2

Staff Sabbaticals:

Should I report employees on sabbatical or leave?

Staff on sabbatical or leave of absence for the full school year **should not** be included in the October Certified and Para/Classified reporting.

Employees on long-term but not full year leave (such as a maternity leave) should not be reported in the October 15th Certified and Para/Classified reporting if not working on October 1, 2012. Such an employee, if he/she returns to active employment during the school year, should be reported, in the April NHQ Data Collection.

Years of Experience:

How do I report Years of Experience?

You should report Years of Experience as the number of years of experience that the employee has in his/her current job class. Years of experience in other states, districts, and schools **should be included** in the total even if there have been intervening periods of other jobs or unemployment. Years of Experience for teachers should reflect total years of experience in as any kind of teacher job code.

The first year that an employee **with no prior experience** is employed, Years of Experience should be 0 (zero) because at that point such an employee does not have any experience. The next year, such an employee will have 1 (one) year of experience, and so on.

Example:

A teacher is new to the district but has 20 years of teaching experience; the years of experience would be 20. If a person has 20 years experience teaching, but is a first time principal, his/her years experience would drop back to 0 for the principal job code.
